Graham Medical Introduces New Barrier Flat Sheet

Replaces discontinued KC #67843

Graham Medical expands its line of single-use privacy flat sheets. The new flat barrier sheet is designed to offer convenience for medical professional while keeping patients warm and comfortable.

This single-use sheet is for use in the ER or other treatments rooms as well as during transports on gurneys and medical stretchers.

The flat sheet (**Graham Medical item #55219**) can be utilized as a patient cover or a barrier for the mattress. The 40" x 72" size provides versatile fit over various stretcher and mattress sizes

The nonwoven, spunbond material is soft, opaque and insulating providing privacy and protection for the patient. The polyethylene backing provides true fluid barrier.

The product is packaged in quantities of 80 sheets per case, 2 bags of 40 sheets for versatility in product storage and handling.

Graham Medical has a full line of flat and fitted sheets. All products are detailed on our website, www.grahammedical.com. For additional information or samples contact customer service at 800-558-6765 or grahammed@littlerapids.com.
