

Behavioral Health Patient Identification Products

Single-Use Colored Products Ideal For Behavioral Health Patient Identification

Mask

- USA made with quality sourced materials
- No nose wire or metal for patient safety
- Meets ISO Standard 10993 for biocompatibility allowing for patient comfort during use

Patient Scrubs

- Single-use made of lightweight, breathable, and fluid resistant material for comfort and infection control
- Sized to fit most patients ranging from Pediatric to 4/5XL
- Top and pants do not have pockets
- Scrub pants feature an elastic waistband with tensile strength that was consistently lower (indicating that less force is required to break the band) than the competition

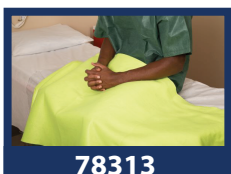

Patient Gowns

- Unique wrap-around design with hook and loop closure
- Single-use made of lightweight, breathable, and fluid resistant material for comfort and infection control
- One size fits most for patient comfort

Blanket/Drape

- Single-use made of Tissue/Poly/Tissue construction for drapability and added fluid barrier
- Less force is required to tear than Nonwoven Blanket 78313

Blanket

- Single-use nonwoven fabric is comfortable and lightweight
- Blanket can be placed in a warmer up to 150° for added warmth

See reverse side for additional patient identification items.

Behavioral Health Patient Identification Products

Graham Medical's Behavioral Health Products are designed with features specific to the needs of behavioral patients. Items are color coded for easy patient identification. Single-use design provides a clean, fresh product each time, reducing the risk of cross-contamination.
