Facility Support

We provide quality disposable products that can make turnovers easier and more cost effective. From fitted sheets, blankets, pillowcases, customized bedding kits, and more, our products are designed with durability and performance in mind.

Provider Support

Providing the best care possible to patients is the ultimate goal. Our line of disposable wear works for provider color identification as well as patient color identification, all while being durable and eliminating the needs for laundering. Connect with one of our representatives to see how we can customize your color identification system.

Patient Support

We are committed to elevating patient care with high-quality medical products specifically designed to meet your needs. Our comprehensive line is crafted to improve patient comfort and satisfaction while reducing laundering fees and turnover times. With the quality expected from our products, we help you create a supportive and reliable environment where your patients can feel prioritized.
